

1. What is Node.js?
2. What is the difference between Node.js and JavaScript?
3. What is Express.js?
4. What is the difference between Express.js and Node.js?
5. What is MongoDB?
6. What is the difference between MongoDB and SQL?
7. How does Node.js handle asynchronous programming?
8. What is a callback function in Node.js?
9. What is a Promise in Node.js?
10. What is the difference between a callback and a Promise in Node.js?
11. What is middleware in Express.js?
12. How do you handle errors in Node.js?
13. What is the difference between try-catch and error-first callback in Node.js?
14. What is the purpose of the package.json file in Node.js?
15. How do you manage dependencies in Node.js?
16. What is the role of npm in Node.js?
17. How do you create a server in Node.js?
18. What is the difference between app.listen() and server.listen() in Node.js?
19. How do you serve static files in Express.js?
20. What is the purpose of the bodyParser middleware in Express.js?
21. How do you connect to a MongoDB database in Node.js?
22. What is Mongoose in Node.js?
23. What is a schema in Mongoose?
24. What is a model in Mongoose?
25. How do you create a model in Mongoose?
26. What is CRUD in MongoDB?
27. How do you create a record in MongoDB using Mongoose?
28. How do you read a record in MongoDB using Mongoose?
29. How do you update a record in MongoDB using Mongoose?
30. How do you delete a record in MongoDB using Mongoose?
31. What is a cursor in MongoDB?
32. What is aggregation in MongoDB?
33. What is the purpose of the \$match operator in MongoDB?
34. What is the purpose of the \$group operator in MongoDB?
35. What is the purpose of the \$project operator in MongoDB?
36. What is the purpose of the \$sort operator in MongoDB?
37. What is the purpose of the \$skip operator in MongoDB?
38. What is the purpose of the \$limit operator in MongoDB?
39. What is a cursor timeout in MongoDB?
40. How do you set up authentication in MongoDB?
41. What is the purpose of a session in Express.js?
42. How do you handle authentication in Express.js?
43. What is JWT authentication in Express.js?

44. How do you handle CORS in Express.js?
45. What is the purpose of the helmet middleware in Express.js?
46. What is the purpose of the morgan middleware in Express.js?
47. What is the purpose of the compression middleware in Express.js?
48. What is the purpose of the cookie-parser middleware in Express.js?
49. What is the difference between cookie and session in Express.js?
50. How do you deploy a Node.js application on a server?
